Hybrid Software wins two prestigious 2025 EDP Awards

- ***SmartDFE™ wins 2025 EDP Award for Best Technical Workflow Software***
- ***CLOUDFLOW Colorspace wins 2025 EDP Award for Best Color Management Solution***

(Ghent, Belgium) Hybrid Software, a leading provider of prepress and workflow solutions for the label and packaging industry, is proud to announce it has earned two prestigious 2025 European Digital Press (EDP) Awards. Hybrid Software has been recognized with an award for Best Color Management Solution for its CLOUDFLOW Colorspace, software for color accuracy, automation, and scalability in hybrid print environments, while Hybrid Software's OEM business unit, Global Graphics Software, has won Best Technical Workflow Solution for SmartDFE™, the intelligent digital front end that drives high-speed label & packaging and industrial inkjet presses. This is the second award for Global Graphics Software in a week, having also been awarded the prestigious King's Award for Enterprise for Innovation for SmartDFE.

"We are honored to receive two prestigious EDP Awards this year, recognizing both SmartDFE and CLOUDFLOW Colorspace. These awards affirm our commitment to innovation and delivering cutting-edge technology that impacts our customers' operations. SmartDFE's advanced performance and Colorspace's transformative color workflow represent the future of print technology—and this recognition from the EDP Association is a powerful validation of the work our team puts in every day," acknowledges Mike Rottenborn, CEO of Hybrid Software.

The EDP Awards are judged by a panel of independent experts from leading European trade publications and recognize the best developments in print production tools and software. Winning an EDP Award is considered a significant achievement in the digital printing industry, as it demonstrates excellence and innovation in the field of digital printing.
